

Jaicer Chairs & Stools

by **Allermuir**

There is a well trusted phrase that ‘form follows function’ and so it is with Jaicer. We set out to create a simply beautiful chair that was constructed entirely from wood; one of the most environmentally sustainable materials we know of. The chair has been designed to work across a multitude of environments; be it in ad hoc use in a contemporary office, as an elegant statement in a meeting room or perhaps more obviously as a café or dining chair in a corporate or hospitality environment. The range consists of chair, high stool and even complimentary tables. In addition to a broad range of finishes for the timber parts there is also the option of adding an upholstered seat pad.

Standard Features

- Solid beech legs with formed beech plywood rails
- Beech veneer plywood seat and back
- Balanced laminate face table tops, 25mm MDF core cut back table top edge profile, clear lacquered
- Seat pads can be upholstered in a broad range of contract upholstery fabrics, vinyls and leathers from Allermuir standard upholstery collection.
- Table tops are available in a range of laminate from the Allermuir standard collection
- Tops feature a Ref 37 cut back edge profile that can be stained or coloured

Optional Features

- Upholstered seat

Finish Options

- Beech components are available clear lacquered, coloured or stained in a range of colours from the standard Allermuir collection

Performance Standards

- EN1002:2005
- EN16139:2013 L2
