

Tonina

Design by Dondoli+Pocci

Tonina delivers a contemporary design that has a multitude of possible applications across a variety of marketplaces. This one piece gas injection moulded polypropylene chair utilises the biomimetic method of moulding to deliver a flawless product with fantastic strength.

Delivered in six contemporary colours, Tonina is manufactured using UV stabilisers to make these suitable for both indoor and outdoor use.

Design Dondoli+Pocci

Claudio Dondoli and Marco Pocci are originally from Colle d'Elsa, near Siena, Italy, where their studio still has its head office today. Dondoli and Pocci met in Florence at the university faculty of architecture where they were part of the same team.

In 1983 they opened an industrial planning, design and architecture studio, Archirivolto. For Archirivolto, "design is beauty, harmony and freedom and cannot be bound by strict, pre-established rules, nor is it privilege of a social or cultural elite."

Standard Features

(* - Selected models only)

Stacks up to 8 high*
